Mission Statement

Our mission is to distribute federal, state, and local funding to community mental health providers in a way that facilitates the existence of (and access to) high-quality mental health and substance use recovery services in our six counties.

Community Assessment & Plan (CAP) – 2026-2028

Ohio law requires MHRS Boards to submit a Community Assessment & Plan to the Ohio Department of Behavioral Health (DBH) every three years. This plan documents the behavioral health needs of our communities and outlines how the MHRS Board will address them. The plan includes: 1) an assessment of local behavioral health needs; 2) identification of priorities and service gaps; 3) cooperation with community partners; and 4) alignment with state law.

In accordance with an analysis of community strengths and needs, below is an outline of the MHRS Board's goals and priorities over the next three years:

1. Preventing Suicide and Improving Youth Mental Health
2. Addressing High Rates of Adult Mental Distress
3. Reducing Substance Use Disorder and Related Family Impacts
4. Enhancing Community-Wide Health Planning and Resource Integration
5. Addressing Geographic and Infrastructure Gaps in Access to Care in Rural and Appalachian Regions
6. Eliminating Disparities in Care
7. Addressing Disparities in Access to Behavioral Health Diagnosis and Treatment
8. Improving Data Collection and Disaggregation to Better Understand Behavioral Health Burdens
9. **Crisis Services:** In State Fiscal Years 2026-2027, ODBH will directly support standardized and quality crisis services in communities—to appropriately reduce behavioral health related arrests or emergency room visits, and to help meet the needs of individuals and families to prevent or stabilize a substance use or mental health crisis. Your MHRS Board will be collaborating with regional partners and providers to make plans for effective crisis services in our six-county region.

These priorities are intended to guide resource allocation, foster community partnerships, and drive measurable improvements in the overall health and well-being of our six-county region over the next three years.

Special Community Impact!

Congratulations to the graduates of our 2025 Crisis Intervention Team (CIT) training for Public Safety Telecommunications professionals that was held on December 12. This training is designed to help call-takers recognize and respond effectively to behavioral health emergencies. The training includes:

1. Identifying Mental Health Crisis Calls
2. De-Escalation Techniques for Call-Takers
3. Behavioral Health Basics
4. Collaboration with CIT Officers and Crisis Teams
5. Alternatives to Law Enforcement Response

Why It Matters:

Dispatchers are often the only voice a person in crisis hears. CIT helps them:

- ✓ Keep callers safe until help arrives.
- ✓ Reduce unnecessary law enforcement involvement.
- ✓ Improve communication with responding officers.
- ✓ Increase confidence when handling high-stress, high-risk calls.
- ✓ Support positive community mental health crisis outcomes.

We're grateful for these dispatchers' commitments to learning, collaborating, and showing up when it matters most!
